for debate) the conference report, progressives noted, would provide zero drug coverage to seniors for
thereby threatening the supply of cheap oil to Britain and risking a British invasion that could in turn trigger a
counter Soviet invasion of Iranian oilfields.

since the propensity for suicide is high in depressed patients, a suicide attempt by other means may occur
during the recovery phase

this trade in inventory reduction is now behind us.

it’s good to see and hear others’ views on all of this
